

BLM CONVEYS LANDS TO BSNC

Lands could support infrastructure development at Pt. Spencer

An historic milestone was reached when the Bureau of Land Management (BLM) signed a final patent transferring more than 2,000 acres of Alaska Native Claims Settlement Act (ANCSA) land at Point Spencer, adjacent to Port Clarence, to BSNC on July 30. The lands and adjacent waters of Port Clarence have served as a port of refuge for people of the Bering Strait region for centuries and the site holds important strategic geopolitical as well as historic ancestral and cultural significance.

“On behalf of the BSNC Board of Directors, shareholders and descendants, I express our deep appreciation for those who helped make this land conveyance a reality,” said BSNC President & CEO Gail R. Schubert. “As our country prepares to defend our shores in the Arctic, we hope that this port will once again stand as a beacon of safety and security in service to our great nation.”

The U.S. Coast Guard Authorization Act of Feb. 8, 2016 authorized conveyance of lands at Point Spencer to BSNC and the State of Alaska, in concert with the Coast Guard’s need to retain jurisdiction of portions of the site. According to the legislation, the lands

BSNC ACQUIRES NORTHWEST CONTRACTING

BSNC announced it has acquired Northwest Contracting, an Alaska-based industry leader in pavement marking and grooving. Northwest Contracting was founded in 2008 by co-owners Charlie McAllen and Chris Hubble.

“BSNC has carefully evaluated the opportunities this acquisition offers. Northwest Contracting will complement the growing Bering Straits portfolio of companies,” said BSNC President & CEO Gail R. Schubert. “We are pleased to announce that Charlie McAllen and Chris Hubble will stay with the company and continue to manage day-to-day business activities. We welcome Northwest Contracting employees into the Bering Straits family.”

Through this purchase, BSNC is implementing the strategic plan established by its Board of Directors to diversify and expand its holdings. Northwest Contracting offers BSNC an opportunity to expand into a new market, grow the company through Small Business Administration certification and extend geographical reach.

SCHOLARSHIP PROGRAM TRANSITIONED TO BSNC BERINGIA SETTLEMENT TRUST

The BSNC Board of Directors have transferred BSNC’s future donations of funding and administration of scholarship program benefits from the Bering Straits Foundation to the BSNC Beringia Settlement Trust. This action was taken by the BSNC Board in light of favorable federal tax changes involving settlement trusts and plans to grow the corpus of the scholarship program. The BSNC Beringia Settlement Trust will assume administration of a scholarship program starting with the spring 2021 semester and will work with BSF to transition remaining program responsibilities prior to the spring 2021 application process.

“We thank BSF Board Directors for their service to generations of BSNC shareholders and descendants,” said BSNC President & CEO Gail R. Schubert. “Since 1991, the BSF has distributed more than \$3.1 million to support the educational goals of our shareholders and descendants. BSF’s efforts have helped many of Our People achieve their educational goals and career aspirations.”

Fall scholarship applications will be administered through MyCache at <https://my-cache.org/>. Application deadlines for all types of education scholarships are June 30 (Fall) and Dec. 1 (Spring). For questions, please email BSNC’s Shareholder Development Department at shdevelopment@bsnc.net.

A MESSAGE FROM THE PRESIDENT & CEO

Dear Shareholders,

The COVID-19 pandemic has challenged many of us in ways that we never could have imagined. Despite these challenges, I have seen resilience and strength in BSNC's shareholders, descendants and employees. In our Region, Our People have enjoyed a bountiful spring subsistence season. Subsistence foods continue to provide important nourishment

and a connection to the land that is especially meaningful during these times. I encourage everyone to help protect our Elders by taking precautionary steps to reduce or prevent transmission of COVID-19. Please remain vigilant by following local community travel restrictions, wearing masks in public, washing hands frequently and if possible, avoid gathering together in large groups.

BSNC employees have shown impressive adaptability. Most BSNC corporate employees are currently working safely and productively from home to provide continuous support to more than 1,650 employees at project sites across Alaska, the United States and world. While BSNC's corporate offices remain closed to visitors and the public, BSNC is not currently experiencing any significant disruption to most of our business operations. BSNC temporarily closed the Aurora Inn in Nome out of an abundance of caution, and we look forward to fully reopening when the time is safe and appropriate.

BSNC's Shareholder Department continues to serve our shareholders remotely via phone and internet. Due to the COVID-19 pandemic, BSNC postponed and has now canceled its Shareholder Informational Meeting that was scheduled to take place in March. To ensure the health of BSNC's shareholders and employees, BSNC will host its 2020 Annual Meeting of Shareholders via internet on Saturday, October 3. Please make sure your mailing address and contact

information is up to date in your MyBSNC profile, or by contacting the Shareholder Department in Nome. Information will be provided on how shareholders can access the virtual Annual Meeting in the Annual Report packet.

BSNC was pleased to hire nine shareholder and descendant interns for its 2020 Summer Internship Program. While many other companies canceled their summer internship programs, BSNC made it a priority to host its internship remotely. The interns meet regularly online, and are providing valuable work to our corporation while also gaining professional knowledge and experience.

It is my pleasure to welcome Northwest Contracting employees into our family of companies. Northwest Contracting is an Alaska-based industry leader in pavement marking and grooving, and has a long history of success. I am pleased that co-founders Charlie McAllen and Chris Hubble will stay with the company and continue to manage day-to-day business activities. BSNC looks forward to working with Northwest Contracting's management team and employees to grow the business, while creating long-term sustainability and value in service of BSNC's mission and values.

In closing, I would like to take a moment and congratulate all 2020 graduates. Due to the COVID-19 pandemic, 2020 graduates did not get to experience a graduation ceremony, which is an important milestone and rite of passage that they worked so hard to achieve. I commend the resilience and dedication of 2020 graduates to pursuing and achieving your educational goals through the pain and challenges this pandemic has caused. Your accomplishments have not gone unnoticed and it is my hope that despite the inability to celebrate and recognize your graduation, you will find comfort and meaning in utilizing your education to serve as an advocate and ally to Our People and others. On behalf of BSNC, I send our best wishes to you all.

Quyaana,

HISTORICAL SPOTLIGHT: INUKSHUK

An Inukshuk is a figure made of piled rocks or boulders constructed to communicate with others. Inukshuks have been part of the Arctic's history for thousands of years. The oldest Inukshuk dated back to a period circa 2,400 to 1,800 BCE. The word Inukshuk can be translated to: "something which acts for or performs the function of a person."

Inukshuks served as communication, navigational and survival aids, marking special places and historical sites. The arrangement, shape and size of an Inukshuk indicate its purpose. The most common shape of Inuksuit (plural) is in the human form, with the stones arranged to resemble arms, legs and a head.

Inuksuit are most commonly found in Alaska, Greenland and Canada and are the national symbol for Inuit in Canada. In Inuit culture, it is considered taboo or bad luck to destroy one.

As a part of the BSNC Summer Internship Program's cultural component, interns created their own mini Inukshuks.

KAWERAK JOINS BSNC AS CO-MANAGING PARTNER OF UNAATUQ

BSNC is pleased to share that Kawerak, Inc. has joined BSNC as a co-managing partner of Unaatuq, LLC and the 320-acre Pilgrim Hot Springs property. The Pilgrim Hot Springs property is currently open to local residents, visitors and tourist groups. This re-opening is welcome news for local residents and visiting tourists after two years of limited access to the hot springs. In 2018, Unaatuq closed the property to visitors due to safety concerns and in 2019 the property was reopened to visitors, but it saw little use due to difficult road conditions. Residents can look forward to the road being resurfaced once weather, road and health conditions are permittable.

ACCESS TO PILGRIM HOT SPRINGS

All visitors are required to fill out a permit, which serves as an entrance ticket and liability waiver, in order to enter the property. Permits can be acquired at the Nome BSNC office located at 110 Front Street, Suite 300. An entrance/access fee will soon be required in order to support maintenance and a sustainable future. BSNC and Kawerak will keep the public informed about any fees, visiting information and access requirements.

LEGACY FUNERAL HOMES PROVIDES BEREAVEMENT ASSISTANCE TO SHAREHOLDERS

McAlister will attend Flight School in Pensacola, Florida in August to become a Naval Aviator. His older sister Lieutenant Kya McAlister received her Naval Aviation Wings of Gold from the Naval Air Station in Corpus Christi, Texas in 2018. McAlister is the son of Mark and Debra McAlister and grandson of Gary McAlister of Medford, Ore.; Linda and Ken Leak of Sparks, Nev.; and Clara and Morris Coffey (late) of Stebbins, Alaska. The conveyance allows for public and private sector facility and infrastructure development that will benefit the United States. The lands being conveyed to BSNC at this time contain an 8,000-foot airstrip that was constructed by the Coast Guard, and additional lands will be transferred to BSNC at a future date, once environmental mitigation has been completed.

"This conveyance has special meaning to me, as it represents partial fulfillment of lands selected by BSNC's original Board of Directors,

realizing the promise of ANCSA nearly 50 years ago," said BSNC President & CEO Gail R. Schubert. "Specifically, I would like to thank Congressman Don Young, Senator Murkowski and Senator Sullivan, BSNC Board Chairman Henry Ivanoff and the BSNC Board of Directors, BLM State Director Chad Padgett, Staff Director of the Subcommittee on Coast Guard and Maritime Transportation John Reyfield, the 17th District of the U.S. Coast Guard, Governor Dunleavy, Roy Jones, CJ Zane and Matt Ganley."
